# (Modification proposal for Jaahz.com)

Baadi, Mohammed F
Programming range for IT

# Summary:

the scope of work is to utilize the Existing TAPSHOP as reverse bidding for services activities where there will be service providers in the market such as ( plumbers , electrician ,construction ETC) and service requesters (users) all the flow of the website will remain the same .

Note :In this document I used the existing app picture to help explaining the needed modification .

## GENERAL FEATURES (EXISTING)

- User accounts.
- Automated emails for user accounts.
- Account verification.
- User feedback and rating.
- Facebook and Google login.
- Get user location using GPS.
- User account settings.
- Infinite scroll and pagination.
- Monetize your app with ads using AdMob.
- Push notifications.
- Integrate image uploads with Amazon S3.
- Show distance of listings. (GPS on browser or device should be enabled).
- Filter listings by distance.

Sort listings by distance, price, or post date

Non-Business Use

# Table of the existing user type and the proposed modification in user type.

| Existing | Proposed |
|---|---|
| **FOR BUYERS**<br><br>• Shop listings by category.<br>• Search listings.<br>• Product details with image sliders.<br>• Send offers to sellers.<br>• Track listings with your offers.<br>• Chat with seller. | **FOR SERVICE PROVIDER**<br><br>• Shop listings by category.<br>• Search request.<br>• Product details with image sliders.<br>• Send offers to sellers.<br>• Track listings with your offers.<br>• Chat with seller.<br>• Post gallery with listing form.<br>• Upload photos with camera.<br>• Crop photos before upload.<br>• Manage posted gallery listings. |
| **FOR SELLERS**<br><br>• Post products with listing form.<br>• Upload photos with camera.<br>• Crop photos before upload.<br>• Manage posted listings.<br>• Select offers from multiple buyers.<br>• Chat with selected buyer. | **FOR SERVICE REQUESTER**<br><br>• Post request with listing form.<br>• Upload photos with camera.<br>• Crop photos before upload.<br>• Manage posted listings.<br>• Select offers from multiple service providers.<br>• Chat with selected service providers. |

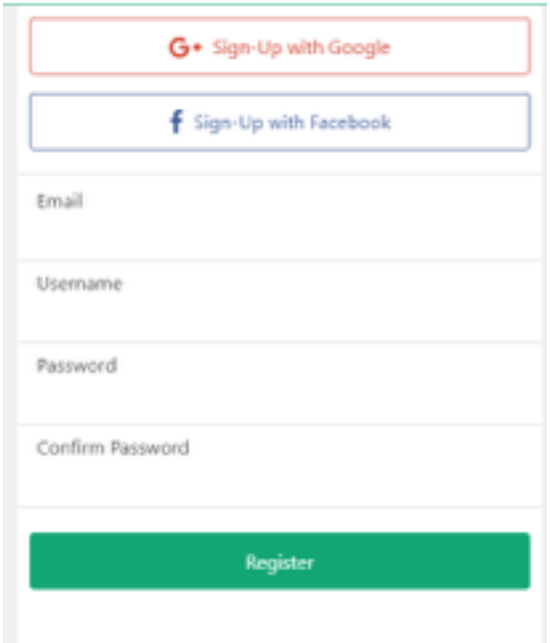
Non-Business Use

# Registration page



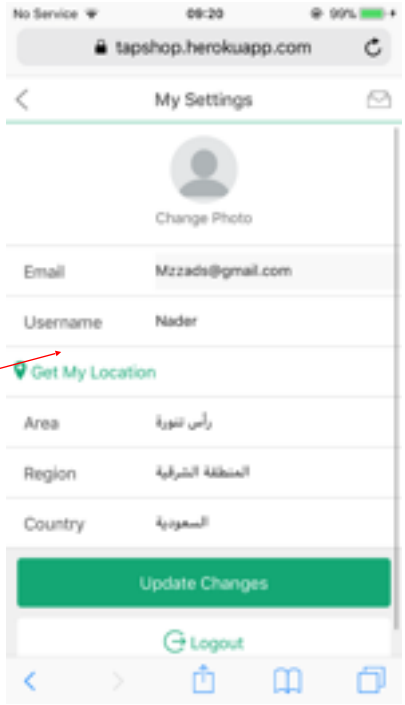
in this page we want to have two options for the users to choose one,

- I want to hire service provider .
- I want to be service provider.

Also add a tick for the terms and conditions, its should be a pop out for user to read the terms and conditions.

Non-Business Use

# My settings profile



Under user name we want user type

If customer

User type: customer

Mobile number

If service provider

User type: service provider

service provided : plumbing, construction etc .(dropdown list)

upload business certificate

Mobile number

In my setting can we have:

user type : service provider

type of services : categories such as plumbing , construction ETC. he can choose more then one from drop down .

upload business certificate

***if the user choose service provider must upload business certificate to be verify by admin

We need tab here for uploading business certificate image.

user type: customer without the uploading tab

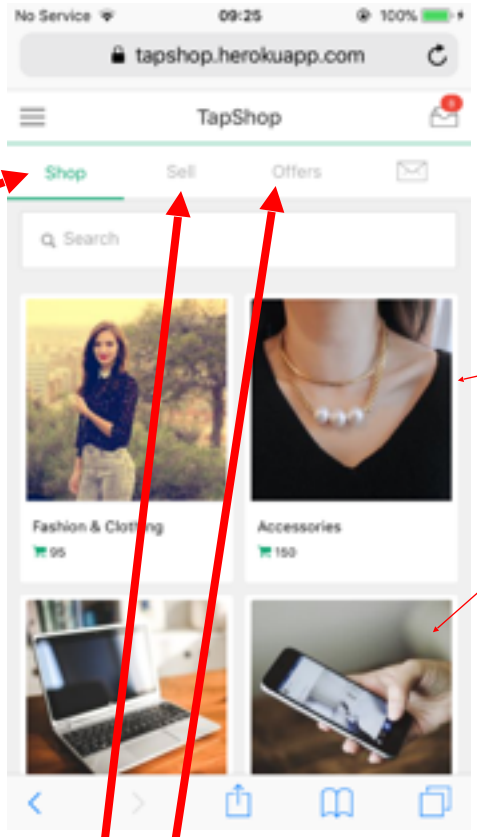
also mobile phone number

Non-Business Use

(note: once it takes my location it should give me my currency, when the country is selected).

# Home page

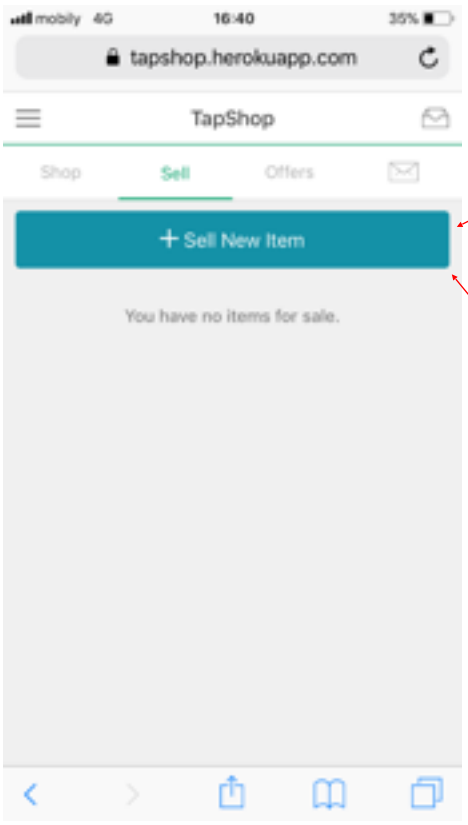
Instead of shop it will be services



***We want to change the categories titles plumbing ,electrician , construction ets.

Change the name of (sell )to (my posts)

Change the name of (offers) to (my offers)

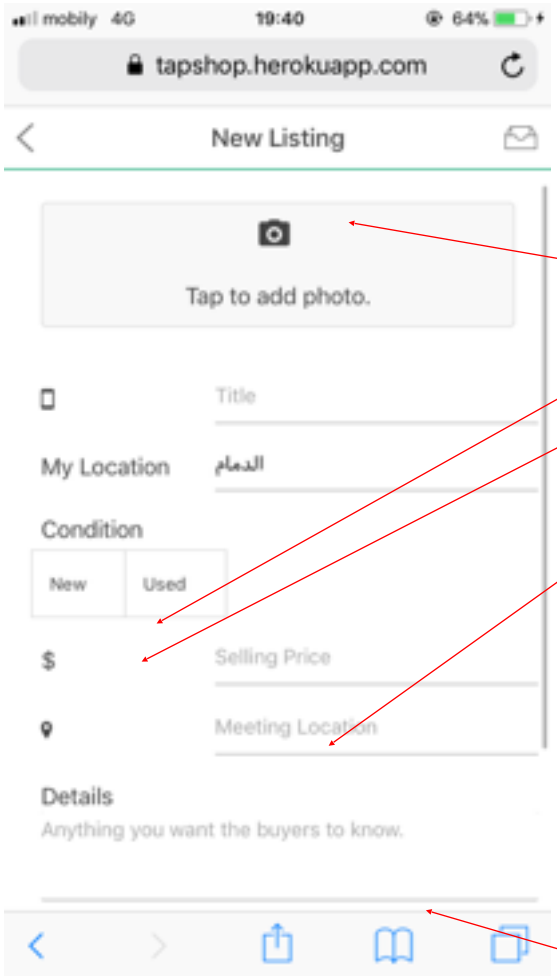


If the user registered as customer in his profile

It will be shown post service request ,instead of sell item

If the user registered as service providers in his profile

It will be shown post gallery ,instead of sell item



# post request just for regular users

If the user is regular user looking for services we will utilize same listing form but chaging names .

***new request

***condition will be working

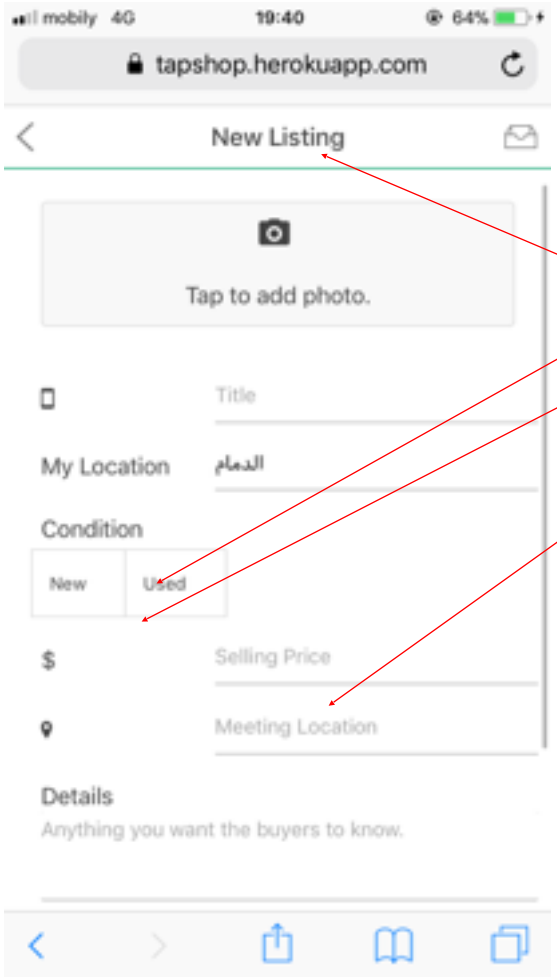
with material or without material will replace new or used

selling price it will be estimated price - optional ,

We want to put “make my request urgent , urgent request

Tick box

(note: has to reflect in the listing)



# post gallery for service provider users

If the user is service provider user we will utilize same listing form but chaging names .

***new gallery

***condition will be working

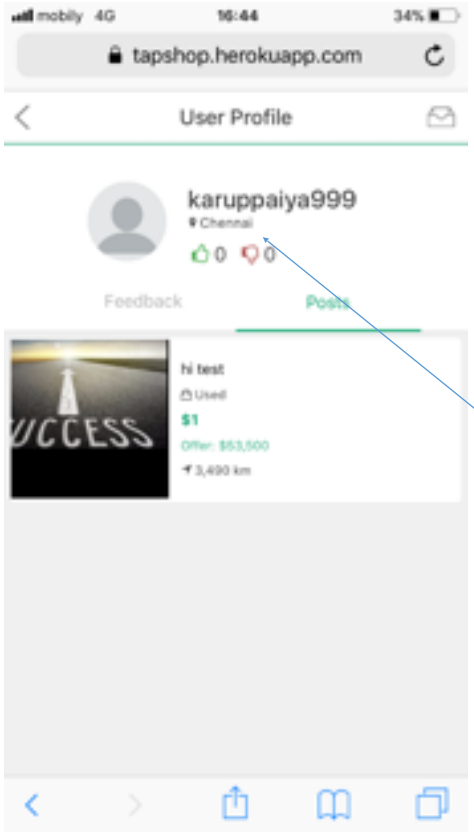
with material or without material will replace new or used

selling price it will remain the same

add tick for feature.

Non-Business Use

# User profile



Under the location user type :service provider

Or user type customer

If service provider show service provided:

Service provided:
plumbing ,construction

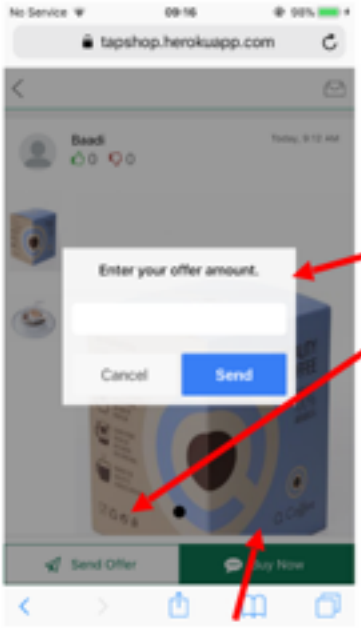
In the profile we want to show if the user is service providers ,and type of services provided .

If the user is customer the profile will remain the same as the existing

note: if the user is a customer the profile will remain the same.

Non-Business Use

# Sending an offer on item

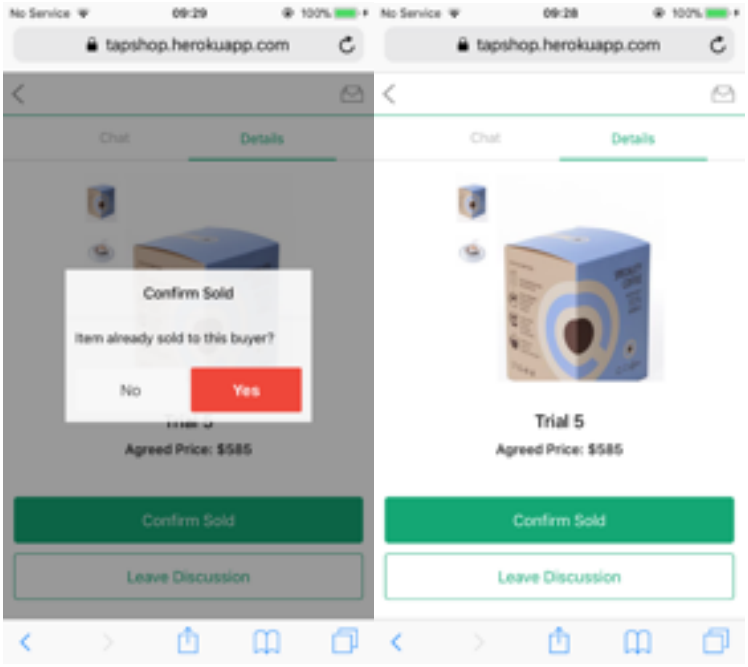


Change (buy now) tab to (accept price)

**just users who registered as service providers in there profile will be allowed to send an offer.

Users who registered as customer will not be allowed to send offer or accept price

# Confirm sold

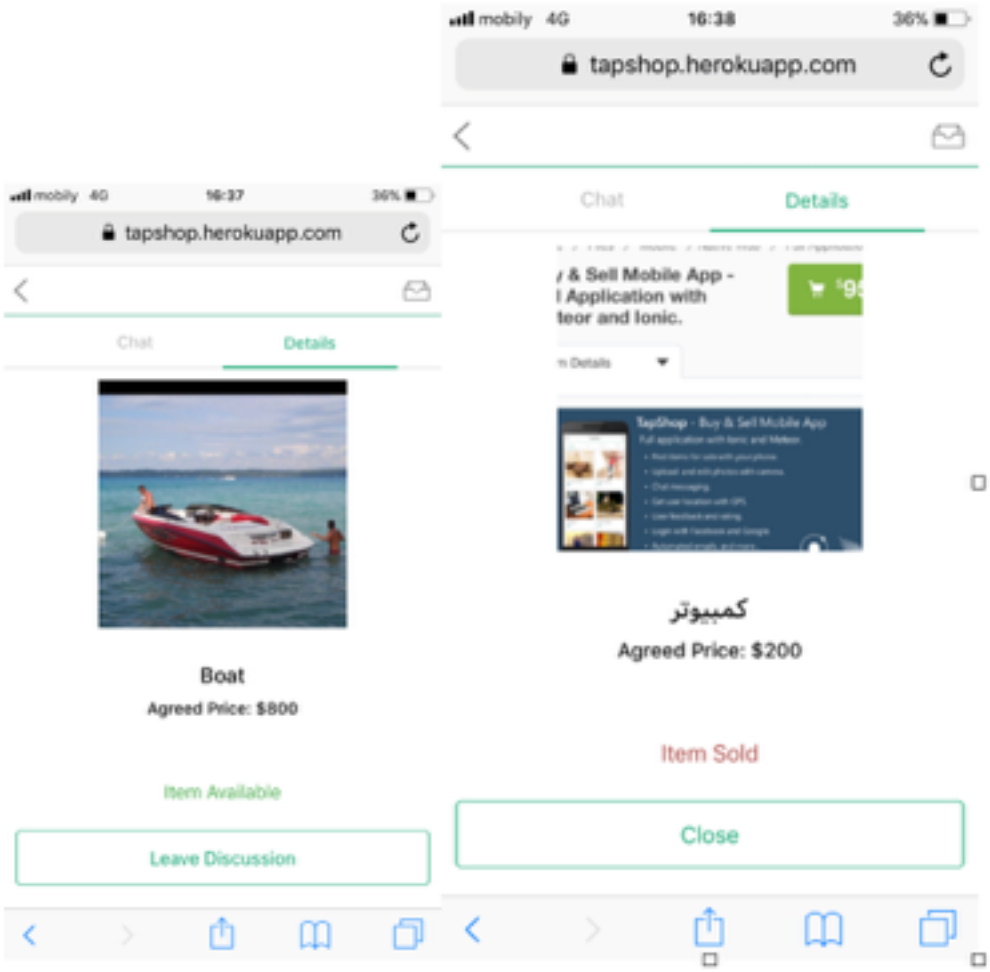


This is the user screen the one who submitted the request,Once the service provider clicked at Accept price, Change  Confirm Sold to “Confirm Award”, “Request already awarded to this service provider?”. He click Yes or No.

Change- “Confirm sold” to “Confirm Award”.

( in case of service providers view)

Non-Business Use



Change (item available) to (open job)

And change (item sold) to (completed job)

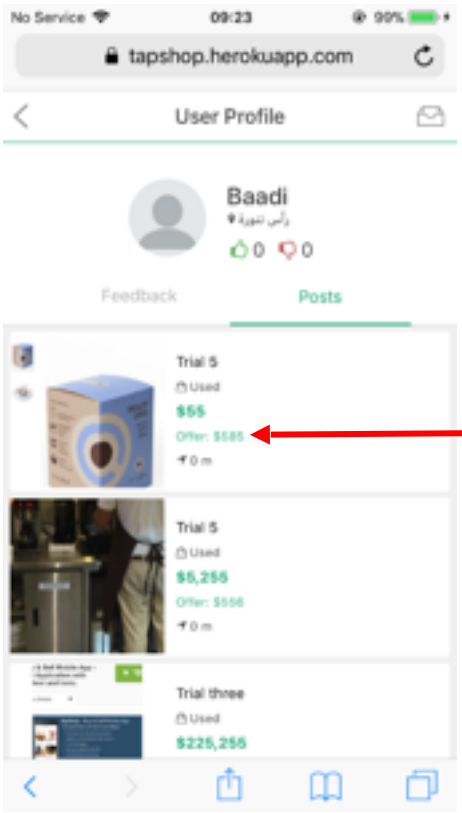
Change “Item Available” to “Open Request”.

Change “item sold” to “Awarded Request”.

other users can see this but regular users cannot, send offer.

Non-Business Use

Non-Business Use



Offer: $344 max price

We want it to be Min price

Offer:( min price)

Also the currency $ we want to change to that geolocation currency

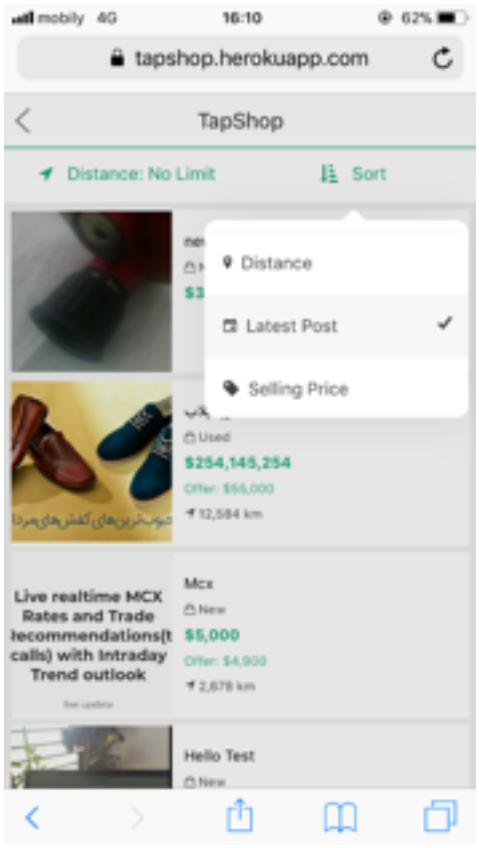
**Since this will be reverse auction we need to show in listing instead of highest price lowest price.

*** also the price are shown in US dollars can we change it to that country geolocation

Example: Saudi Arabia: Saudi riyal

Non-Business Use

# Inside category listing page



in this page we want to add on the sort by the following:

-requests

-Urgent

-gallery

- remove selling price

**Since this will be reverse auction we need to show in listing instead of highest price lowest price.

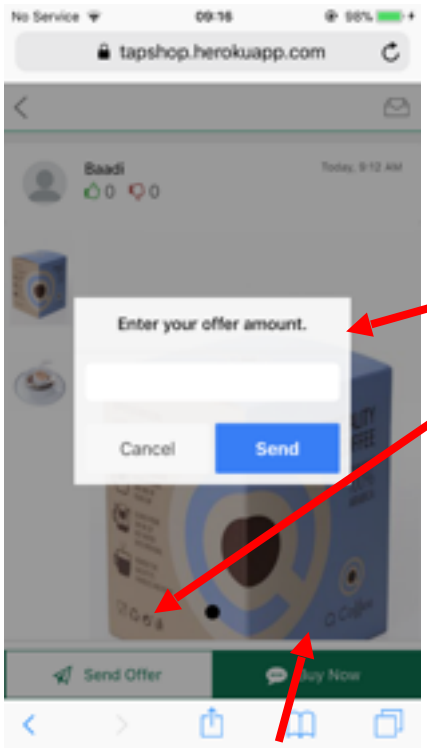
*** also the price are shown in US dollars can we change it to that country geolocation

Example: Saudi Arabia: Saudi riyal

*** instead of NEW or USED , we want to change it to be with material or without material .

Non-Business Use

# Sending an offer on item



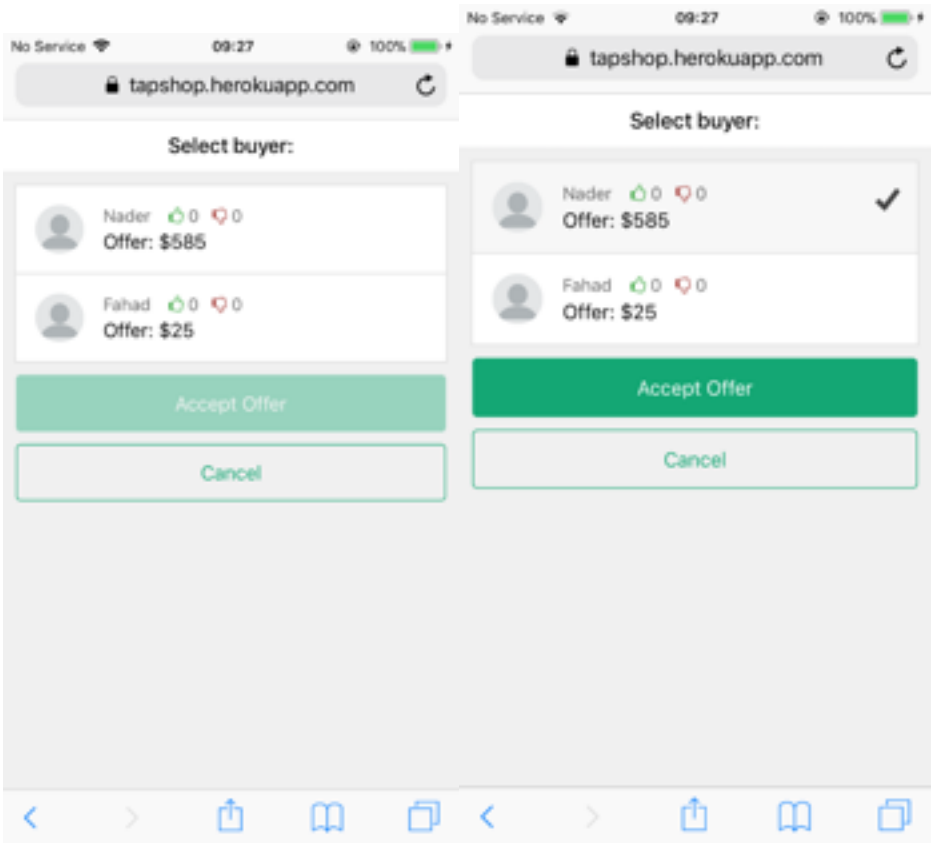
Change (buy now) tab to (accept price)

**just users who registered as service providers in there profile will be allowed to send an offer.

Users who registered as customer will not be allowed to send offer or accept price

Non-Business Use

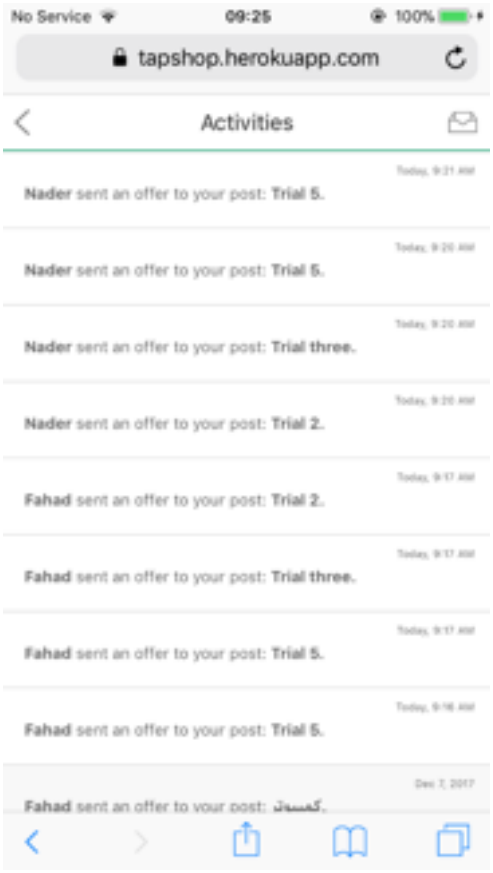
# As a requester  select a service provider



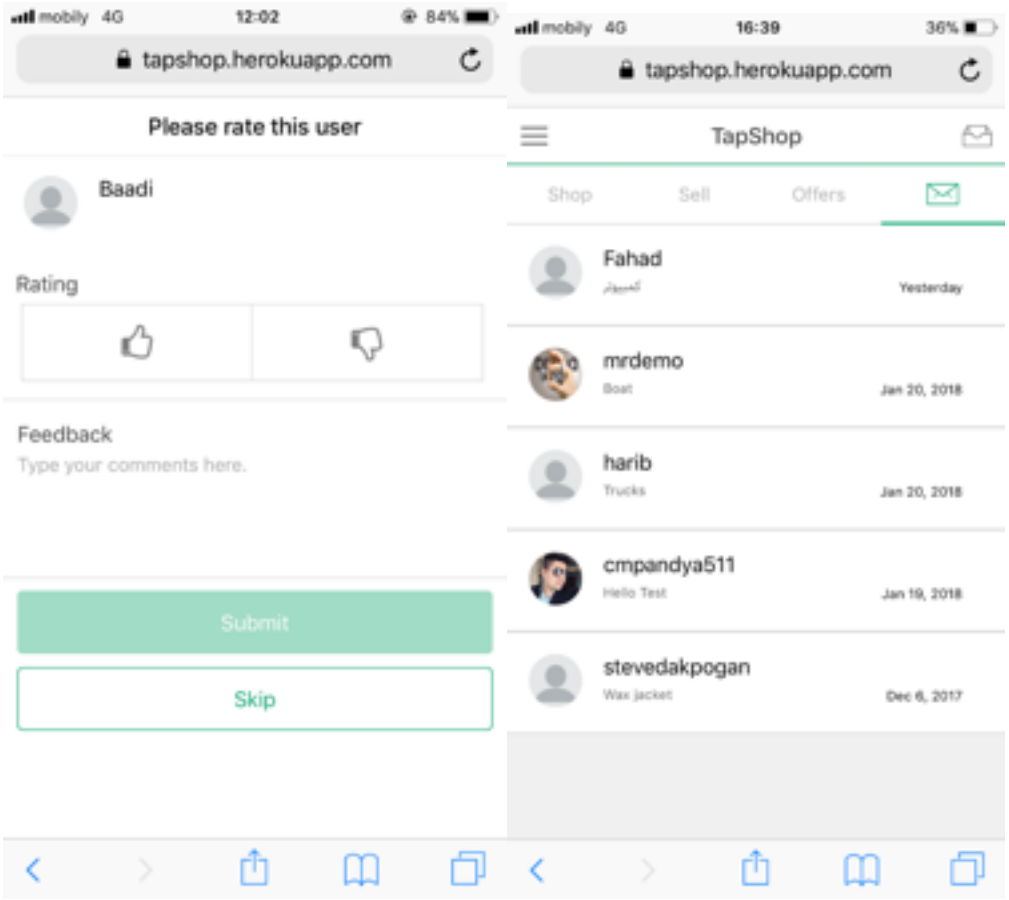
****Here just change the name of select buyer to select service provider

# Activities (Notification)

link the notifications to the emails, the user will receive an email.



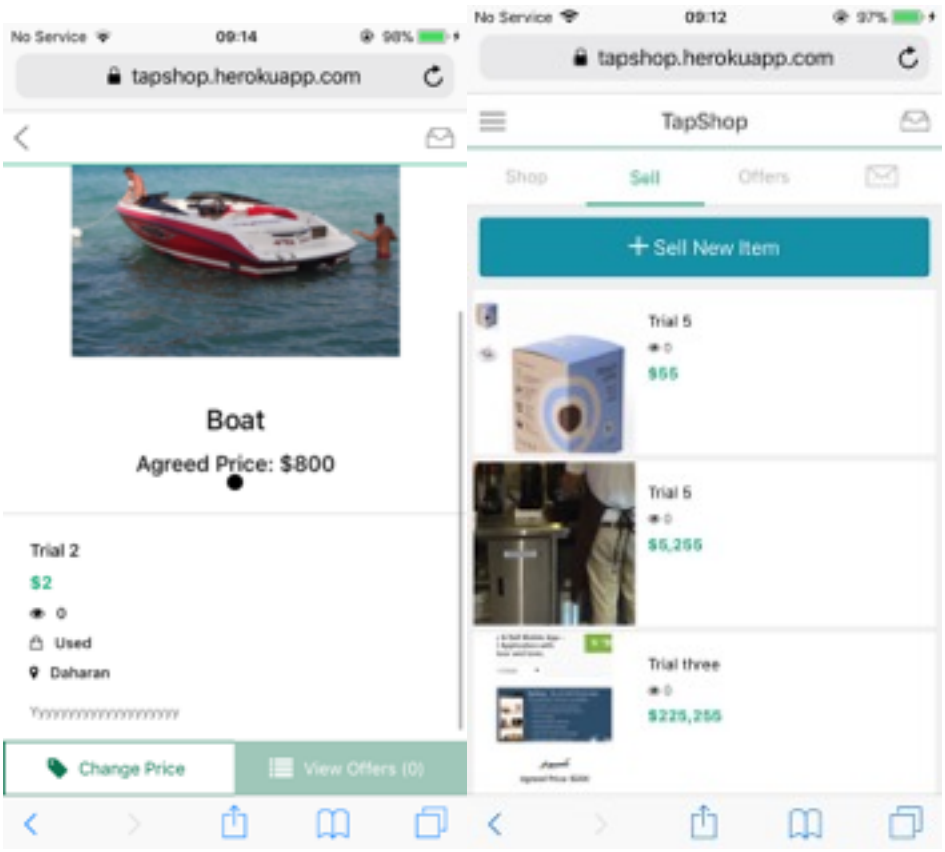
Non-Business Use



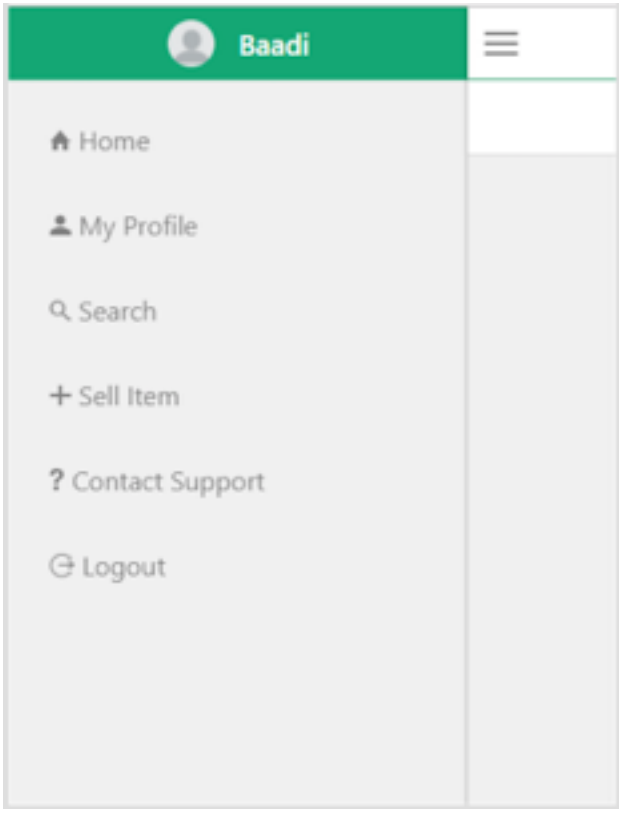
***The “ please rate this user” Change it to “Please rate this service provider” page should come after the user has confirmed the award. to allow the normal users to rate the service provider users.

Non-Business Use

Non-Business Use



**** Note : the “post request” form details will be reflected here.



-We need to add the following tabs:

-Add FAQ

-Add Website Bank account details

-add website commission

-Add Arabic or English AR/ EN.
